Make dealing with Unisurge a
standard procedure

the right products
in the right hands
at the right price

At Unisurge our philosophy is quite simple:

To provide our customers with the service and expertise they would expect of a supplier of products of such critical importance to the day-to-day running of their healthcare departments.

what makes Unisurge different ?

Established since 1988, Unisurge is a trusted manufacturer and supplier of practitioner-specified procedure packs, dressing packs, medical disposables and theatre products to health care professionals. Our range of bespoke single use products is both cost effective and patient specific. Surgical teams can be confident that all the necessary components for a procedure will be supplied, to their precise specification, in a pre-sterile pack, ready for immediate use.

Our promise to you:

Experienced sales team ready to take your order and advise you on delivery times and other Unisurge products - we aim to surpass all the standards of your current service

Innovative products constantly being introduced to increase your purchasing efficiency

Huge range of products always kept in stock ready for fast-track delivery to your door

Regular deliveries throughout the UK

All at the most cost effective prices

Let Unisurge take the hassle out of your
healthcare equipment purchasing

Ethylene Oxide Sterilisation

Ethylene Oxide Sterilisation offers the very best in Instrument sterilisation and is assured to penetrate all instrument surfaces. Ethylene Oxide Sterilisation represents the most effective method of sterilisation as an alternative to steam sterilisation where oxidation can occur and compromise the performance of theatre instruments.

Clear 'Single-Use' Identification

All Unisurge Single-Use Theatre Instrument are clearly marked "Single Use". This is to ensure that these instruments cannot be mistaken for re-useable instruments and minimise the risk of cross contamination. In addition to clear instrument identification, all Unisurge Single-Use Surgical Instruments are traceable throughout their usable life using the peel-off 'Trace-Me' label.

Precision Manufactured

All Unisurge Single-Use Theatre Instrument are manufactured to the very highest standards. Their balance, precision and feel are matched only by their cost effectiveness. The combination of their quality, ease of use and price offers the healthcare professional a real, practical alternative to costly multi-use instruments.

Sterile Packaged

All Unisurge Single-Use Surgical Instruments are double wrapped sterile in our extra safe 'Easy-Peel' Pouches. All instruments are batch traceable, pressure tested and have protected tips on presentation cards.

Disposal

All Unisurge Single-Use Surgical Instruments should be disposed of in sharp bins. Any non-sharps can be disposed of in clinical waste bags. Clinical waste bags and sharp bins will be picked up by a clinical waste management company and disposed of in accordance with your trusts' policy.

Our commitment to you...

From our Newmarket headquarters, the development team keeps abreast of the latest advances in surgical practice and takes full account of the consistent rise in patient expectations.

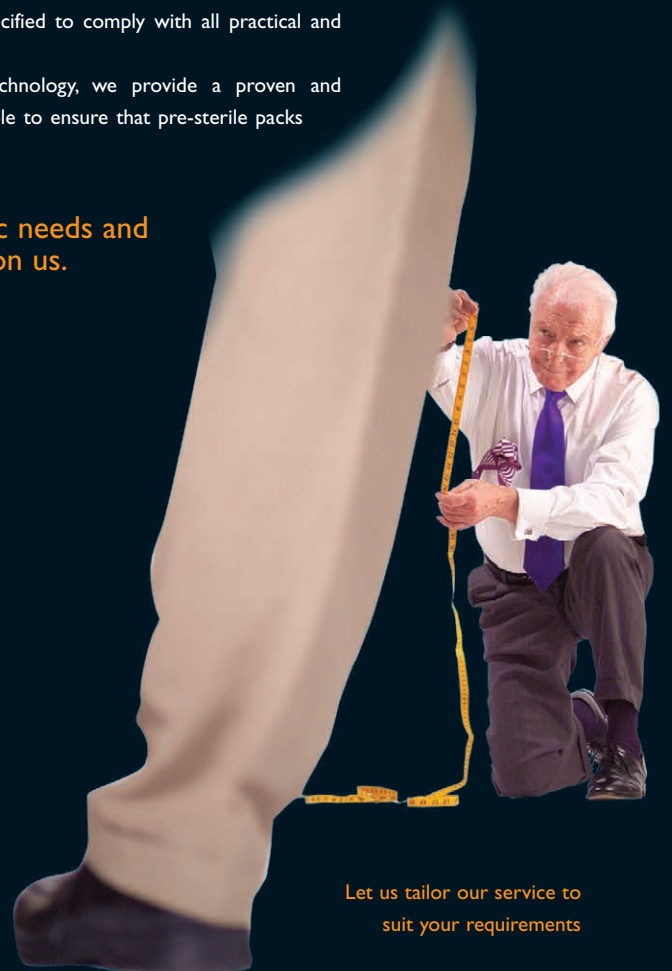

Unisurge offers a comprehensive range of supplementary product packs. These include individual single use surgical instruments, dressing packs, x-ray detectable swabs, basin liners and gloves.

Assembled in various pre-specified combinations, this supplementary procedural equipment can be delivered to end users using our innovative and functional Uni-Tray system. Medical staff are then able to work directly from the tray and at the same time ensure the safe disposal of used equipment and material.

Like all of Unisurge's products this supplementary range is practitioner-specified to comply with all practical and clinical requirements.

Linked to a significant investment in state of the art Information Technology, we provide a proven and trusted distribution network. Using our own fleet of vehicles Unisurge is able to ensure that pre-sterile packs arrive at their destination on time and in optimum condition.

Our aim is to tailor our service to suit your specific needs and quite simply surpass the expectations you place upon us.

Let us tailor our service to
suit your requirements
